RODERICK LEWIS,
Chief Election Officer.

And the House having met,

The Honourable the Lieutenant Governor, having entered the House, took his seat on the Throne.

Mr. Yaremko, the Provincial Secretary, then said:

"I am commanded by the Honourable the Lieutenant Governor to state that he does not see fit to declare the causes of the summoning of the present Legislature of this Province until a Speaker of this House shall have been chosen according to law, but today at a subsequent hour His Honour will declare the causes of the calling of this Legislature."

His Honour was then pleased to retire.

And the Clerk having called for nominations for the office of Speaker, the Prime Minister, Mr. Davis, addressing himself to the Clerk, proposed to the House for their Speaker Allan E. Reuter, Esquire, Member for the Electoral District of Waterloo South, which motion was seconded by Mr. Nixon (Brant), and it was,

Resolved, That Allan E. Reuter, Esquire, do take the Chair of this House as Speaker.

The Clerk having declared the Honourable Allan E. Reuter duly elected, he was conducted by the Prime Minister and Mr. Nixon (Brant) to the Dais, where, standing on the upper step, he returned his humble acknowledgment to the House for the great honour they had been pleased to confer upon him by choosing him to be their Speaker.

And thereupon he sat down in the Chair and the Mace was laid upon the Table.

The House then adjourned during pleasure.

The Honourable the Lieutenant Governor then re-entered the House and took his seat on the Throne.

Mr. Speaker then addressed His Honour to the following effect:

May it please Your Honour,

The Legislative Assembly have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.

The Provincial Secretary then said:

Mr. Speaker,

I am commanded by the Honourable the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty's person and Government, and not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

The Honourable the Lieutenant Governor was then pleased to open the Session with the following gracious speech:

Mr. Speaker and Members of The Legislative Assembly of Ontario:

I extend warmest greetings and a sincere welcome to each and every one of you.

On behalf of our Sovereign, I extend congratulations to the Prime Minister and his Ministry, as well as a special welcome to those Honourable Members who attend their first Session of the Legislature.

During this First Session of the Twenty-ninth Parliament of Ontario, the Government will place before you its supplementary estimates, incorporating many special programs to alleviate winter unemployment and other expenditures designed to reinforce the positive economic impact of the budget.

You will also be asked to approve amendments to The Income Tax Act to implement tax reductions to further increase demand in the economy, changes in the Province's Succession Duty Act, The Corporations Tax Act, and legislation to reduce the burden of health insurance premiums.

Bills will also be introduced to implement changes in pension legislation. Finally, you will be asked to approve legislation concerning the structure of government.

FIFTH DAY

FRIDAY, DECEMBER 17TH, 1971

PRAYERS

10.30 O'CLOCK A.M.

The following Bill was introduced and read the first time:—

Bill 21, An Act to provide for the Control and Regulation of Snowmobiles.
Mr. Shulman.

Before the Orders of the Day Mr. Speaker delivered two rulings as follows:—

On Monday last the Member for High Park raised what he alleged to be a matter of privilege, under which he made certain allegations relating to the recent Election in three electoral districts, and asked me, as Speaker, to refer his allegations to the Committee on Privileges and Elections.

Firstly, I must repeat what has been said by my predecessors on several occasions—A matter of privilege must pertain to one of those special privileges that the Assembly and its Members individually enjoy which are not enjoyed by other citizens. I refer you to Standing Order No. 42. The matter raised by the Member for High Park is of equal interest to the whole electorate and is not one of those special parliamentary privileges.

Secondly, I, as Speaker, have no authority to refer any matter to a Committee for consideration. Such referral can only be made by Order of the House on motion properly moved after notice and passed.

Thirdly, if offences and irregularities, as alleged, have taken place, the proper remedies exist under Federal and Provincial law; for example, if any person has evidence that another person is guilty of the offence of personation, he should lay a charge under the Criminal Code of Canada. The Ontario Election Act defines those things which are election offences and prescribes the proper procedure to be taken. Similarly, it provides the action to be taken if serious irregularities are alleged.

The Deputy Speaker referred to me a matter raised in Committee of Supply by the Leader of the New Democratic Party, as a matter of privilege.

At the outset I must point out that privilege only relates to those special privileges which the Members of the House enjoy individually and the House enjoys collectively, that are not enjoyed by non Members. I refer you to Standing Order No. 42. The matter raised by the Honourable Member does not appear to relate to any of those special privileges.

The question then arises—could it have been raised as a Point of Order. Again it appears that the Standing Orders and precedents are against this procedure. Standing Order No. 16 (a), item 8, states clearly that one Member may not make allegations against another, and item 10 prohibits a Member from charging another with uttering a deliberate falsehood. Moreover, May's Parliamentary Practice, 18th Edition, at page 419, cites a number of cases supporting the proposition that one Member may not accuse another of misrepresentation, although some cases hold that to be out of order the accusation must be deliberate misrepresentation. It would, therefore, appear that the Leader of the New Democratic Party himself committed a breach of order in making his accusation.

There are, of course, other ways that the New Democratic Party Leader could have made his point without offending the rules and precedents of the House. If he could not find a proper vehicle in the Supplementary Estimates, he could, of course, during the Oral Question Period, ask the Ministers concerned if they would not agree that there was an inconsistency in the statements they had made to the House.

Also, before the Orders of the Day, Mr. Speaker presented to Major B. Handley Geary, V.C., retiring Sergeant-at-Arms, a Scroll from the Government of Ontario in recognition of his service to the Legislative Assembly for the past quarter of a century.

On motion by Mr. Brunelle, seconded by Mr. Wells,

Ordered, That Arthur K. Meen, Member of the Assembly for the Electoral District of York•East, may bargain for, and purchase from Her Majesty the Queen in right of the Province of Ontario as represented by the Minister of Lands and Forests, the lands at a price of \$100.00, described as being:

All that parcel or tract of land in the Township of Wicklow, in the County of Hastings and Province of Ontario, containing by admeasurement 0.13 acres, be the same more or less, and being composed of that part of Lot 4, Concession XIII in the said township designated as Part 1 on a plan and field notes of survey dated September 10, 1971, signed by M. J. McAlpine, Ontario Land Surveyor, of record in the Department of Lands and Forests, at Toronto, as Location MJ 262 and of record in the Office of Land Titles at Belleville as Plan 21R-483.

and his seat in the Assembly shall not thereby be vacated nor shall he thereby be rendered ineligible as a Member of or to sit or vote in the Assembly.

The Order of the Day for resuming the Adjourned Debate on the Motion for Second Reading of Bill 16, An Act to amend The Extra-Judicial Services Act, having been read,

*Provincial Secretary

Minister of Citizenship.*

Tuesday, the twenty-ninth day of February, 1972, being the first day of the Second Session of the Twenty-ninth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable W. Ross Macdonald, P.C., C.D., Q.C., LL.D., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

On this occasion of the opening of the second session of the 29th Parliament of Ontario, I extend warmest greetings to you.

The people of Ontario, having been recently consulted as to their wishes with respect to their representation in this Legislature, have assigned to each of you a most solemn duty and charge which I know you will serve steadfastly

and well, whatever your place and part in our democratic process. On behalf of our Sovereign, I convey my best wishes to the Premier, and to his Ministers in their several new responsibilities, and to all members of the Legislative Assembly.

Laissez-moi vous exprimer mes vœux les plus chaleureux en ce jour d'ouverture de la deuxième session de la vingt-neuvième Législature de l'Ontario.

La population de notre Province ayant été récemment consultée quant au choix de ses représentants au sein de cette Législature, a confié à chacun de vous un mandat et des responsabilités d'une importance on ne peut plus capitale. Je demeure persuadé que quelles que soient vos positions respectives et votre rôle individuel dans le processus démocratique qui est le nôtre, vous accomplirez tous votre tâche avec constance et efficacité. Je transmets, au nom de notre Souveraine, mes meilleurs vœux de réussite à notre Premier Ministre et à ses Ministres ainsi qu' à tous les membres de l'Assemblée Législative, dans les nombreuses et nouvelles responsabilités qui sont les leurs.

My Government wishes to outline to the Legislature the various proposals it intends to submit to your scrutiny and consideration during this session. These and other measures, to be placed before you in due course, will be designed to carry forward the major purposes of the Government in response to present conditions of our society and its more urgent requirements at this time in our history.

My Ministers believe that as a result of their recent mandate, they have a renewed responsibility to make the growing complexity and scope of government services more efficient and productive while, at the same time, bringing government closer to the people, so that it may be more responsive to the continuing needs for change and reform.

My Ministers are aware of the widespread concern over the condition of the national economy of which Ontario's industry and commerce are such a vital part. To maintain public confidence in the basic strength and vigour of our own economy requires the Government to use fiscal prudence and restraint in the areas of its responsibility and to encourage individual incentive, endeavour and entrepreneurship in the private sector.

My Ministers believe it their duty to give leadership and provide purposeful means by which our people may continue to enjoy the natural beauty and serenity of our Ontario landscape and a daily life in a healthy and wholesome environment. As well, my Ministers believe it their duty to maintain a standard of life for all citizens, the quality of which will reflect the compassionate and generous spirit of our people. My Government will also seek new ways to encourage the achievement of excellence in the many fields of citizen endeavour from which all of Ontario's people may draw inspiration and example.

It is expected that our Province will continue to enjoy a substantial expansion of its economy in 1972, with a real growth rate in excess of 6%. Such an achievement will represent a significant improvement over the past year. Despite such growth, my Government considers the present and projected unemployment levels to be unacceptable. It is therefore the primary objective of my Government's economic, social and fiscal policy to attain the highest possible rate of employment.

Budgetary and fiscal strategy will be designed to maintain a rate of expansion in all areas of economic policy in order to effect substantial improvements in the employment rate. While much has been done, and more will be done, to achieve this objective, the speed with which it can be achieved depends in large measure on the improved co-ordination of federal and provincial policies and programs.

My Government will continue to make constructive proposals to the Federal Government in order to improve inter-governmental co-operation in such specific areas of current concern as fiscal and monetary policy, and in areas relating to competition and foreign trade, including the vital consideration of the auto pact between Canada and the United States.

My Government has proposed to the Federal Government that effective means of dealing with longer term economic issues be created through regular meetings of Ministers of Finance, which would be constituted as a joint economic committee.

My Government is convinced of the need for both federal and provincial action in order to sustain and develop an internationally competitive secondary manufacturing sector, a matter of critical importance to Ontario.

The Government is also committed to the pursuit of policies which will encourage more economic activity and greater participation by Canadians in the development of their own resources and in the utilization of their own skills. Further action in this regard will follow the report of the Select Committee of this Legislature on economic and cultural nationalism.

My Ministers will continue to devote their attention to the many important economic, fiscal and trade matters in which Ontario, the Government of Canada, and our sister provinces have a common interest and responsibility, and in which the co-operation of all is essential. In particular, my Government is eager to achieve federal-provincial agreement in the following areas:

1. tax sharing, so that the basic imbalance in our federal system between revenue sources and expenditure responsibilities can be corrected;
2. constitutional reform, and particularly the distribution of powers, a matter closely related to tax sharing, so that government responsibilities and institutions are more in accord with the contemporary needs of Canadians; and
3. shared-cost reform, so that the provinces can assume full financial responsibility for existing shared-cost programs if they so desire.

In a broader, but no less significant area of inter-governmental affairs, Ontario intends to make strong representations to the Federal Government, emphasizing the need for full provincial consultation and participation in formulating national policies of vital concern to the provinces, including future considerations of national policy relating to agriculture, communications, energy, foreign investment, international trade and urban affairs, with particular emphasis on urban renewal and housing.

To this end, my Government proposes to offer to host a tri-level conference this year in Ontario, in which federal, provincial and municipal governments will be represented. Such a conference will advance the important work begun last year, which my Government has supported and helped to sustain.

In the major reorganization which follows the study undertaken by the Committee on Government Productivity, a new Ministry of Treasury, Economics and Inter-Governmental Affairs will be established, with special responsibility for urban and regional planning, provincial-municipal relations and finance, and federal-provincial relations. The implementation of these activities will be integrated in the annual fiscal plan through the provincial budget. The Ministry recognizes the need for stronger and more independent local governments, and, in preparing future urban and regional plans, my Government will be able to avoid a fragmented approach and piece-meal planning by achieving a closer partnership with municipal representatives.

Proposals will be made to the Legislature on many specific urban and regional matters and a series of design for development reports will be made available, which will indicate the potential pattern of development in all regions of the Province. Plans will be introduced to create regional governments in Sudbury and Kitchener-Waterloo. Action will be taken to further the implementation of the Toronto-Centred Region Plan and the Design for Development of North-western Ontario.

As a result of the study by the Committee on Local Election Law, the Government will introduce a bill designed to reform election procedures, which will include the abolition of property qualifications for voters in municipal elections.

My Government, recognizing the significant role of the Ontario Municipal Board and believing it now appropriate to examine relationships of this Board with the municipalities, will conduct a review of the functions, responsibilities and practices of the Board, including consideration of appeals and petitions from its decisions. Municipalities, municipal organizations and the general public will be invited to participate in this review.

My Government will continue, in the summer months, the Employment for Youth Program and will increase the scope of this program by providing additional funds for its activities. The Summer Employment for Youth Program, which provides jobs for students and also funds alternative volunteer activities, is designed to complement the Opportunities for Youth Program of the Federal Government. The success of the various provincial programs including the retardation student volunteer program, project SWEEP, and the summer volunteer program of the Department of Social and Family Services, all initiated last year, is a tribute to the energy, enthusiasm and diligence of the young people of Ontario who were involved.

New activities will be added to the existing program, among them a correctional rehabilitation program involving student participation, as well as the project Youth and the Law, which has been designed to involve young people in an appreciation of law enforcement and the administration of justice.

In the present year, the substantial and practical task of restructuring the organization and processes of administration will be pressed forward as the Government implements the major recommendations of the Committee on Government Productivity. My Ministers are convinced of the need for such a reorganization in order to improve over-all effectiveness, and to develop new and better processes by which future policy may be considered and created, and existing policy can be reviewed and reformed.

To this end, new legislation will be introduced in order to provide for the implementation of these far-reaching recommendations. This legislation will be incorporated in an omnibus bill and Honourable Members will have the opportunity to debate its provisions, both in principle and specific detail.

The publication of other reports arising out of the continued work of the Cronyn Committee on Government Productivity will be forthcoming in the near future, including studies and recommendations on automatic data processing, communications and information, and on human resource utilization.

My Government will propose to Honourable Members that a Commission be appointed to review the functions and processes of the Legislature, and means by which these might be improved to give elected members better opportunities to serve their constituents and to enhance the role of the private member in this Legislature.

My Government will introduce legislation to prohibit the holding of more than one elected public office by any individual.

Legislation will be introduced allowing for reforms in the Ontario school record system, and providing greater safeguards to ensure the confidentiality of student records. This will establish the right of students and parents to have access to these records, based on the principle that such information is the private property of the individual concerned.

Legislation will be introduced that will enable school boards and municipal authorities to share in the development of various facilities for both school and community use. Through such arrangements the use of school buildings should be considerably enhanced and the concept of the school as a community resource will come closer to being a reality.

My Government intends to extend bilingual services, as required, to the municipal level, and in court proceedings. The report of the Ministerial Commission of French-language Secondary Education is expected in the near future, and the Government will consider its recommendations and consult the Legislature as to appropriate action. A senior position will be created in the Department of Education with specific responsibilities for integrating and co-ordinating the various existing programs and activities which the Department provides in support of the French-language instructional programs in the elementary and secondary schools of Ontario.

As part of a general review of over-all economic policy, my Government considers it urgent that there be a re-evaluation of its role and responsibility with regard to the Ontario housing industry, and will seek further means by

which housing construction can be encouraged so that more homes are available to more people at the lowest possible cost.

My Government will continue to give close attention to the needs of the agricultural industry, with increasing emphasis on the business aspects of farming, particularly farm management. Further initiatives will be taken to increase and diversify the use and sale of Ontario-grown agricultural and food products in domestic and export markets.

The Farm Products Marketing Act and The Ontario Milk Act will be amended to reflect the principles of recommendations contained in the recent report of the Royal Commission Inquiry into Civil Rights. Amendments to The Edible Oil Products Act to permit the blending of certain dairy products with edible oil products will be proposed.

In the field of health services, the recommendations of the Grange Report on Hospital Privileges will be implemented by legislation, which will provide an appeal mechanism for physicians who may be refused courtesy privileges in a hospital.

Legislation will be introduced providing insured services in nursing homes and homes for the aged, allowing the Province the necessary authority to expand its health care insurance program to cover needed medical care in this area.

My Government will take steps to improve the availability of essential dental and medical services to people in more isolated parts of the Province.

My Government, in considering the observations and recommendations of the Williston Report, will accelerate its efforts to provide improved treatment and facilities for the mentally ill, and expand the scope and availability of training programs for the retarded within their home communities.

My Government shares fully the concerns of the people of Ontario in respect to the protection and enhancement of our natural environment. The Ontario Water Resources Commission has maintained constant liaison with officials of the Federal Government, and has been involved in the discussions with the Government of the United States on co-operative measures to clean up the Great Lakes. The Government of Ontario will continue to press for the signing and implementation of an international agreement with respect to the control of pollution on the Great Lakes system.

My Government has completed a study on the many and increasing problems of waste and litter. A proposal to eliminate various unsightly conditions in our environment will be placed before you. A program will be implemented to remove the blight of abandoned automobile hulks and automobile graveyards from our landscape.

Substantial program expansion in outdoor recreation is planned over the next five years, to include the development of parks and land acquisition both for public open space and for environmental protection.

A Select Committee of the Legislature will be asked to consider proposals with regard to public safety and convenience in relation to motorized snow vehicles and all-terrain vehicles.

Experiments will be undertaken to test promising new systems and equipment in the field of urban transit, in the anticipation that Ontario may achieve technological leadership which can become the basis for new types of industries.

The Government will be proceeding with proposals to develop the lignite deposits at Onakawana in Northeastern Ontario, which are capable of supporting a 1000 megawatt power plant to help meet Ontario's continuing need for increased power. Such a development would create a much-needed focus of industry and employment and provide a stimulus for the whole James Bay area. Further exploration and testing will be carried out as a joint undertaking by the new Ministry of Natural Resources, the Hydro-Electric Power Commission of Ontario, and a Canadian-owned corporation.

It is the intention of my Government to extend its program of annual achievement awards, which has existed for some years in the field of sport. The expanded program will cover other areas of citizen endeavour and recognize the contribution of the individual to our society.

In the field of the arts, such awards will be coupled with scholarships to permit further studies, and to encourage further achievement in this important area of our daily lives.

The Government believes greater recognition must be given to the fact that many of our cultural organizations are resources to be enjoyed by the whole Province, and means will be provided to make them more accessible to people throughout Ontario. To facilitate these and other programs, the various forms of provincial government support to individuals and cultural organizations will be reviewed and integrated.

My Government proposes to establish a community programs division within the Department of Correctional Services. This year, regional detention centres are to be completed at Ottawa and Niagara, construction will begin at London, and new centres in the Toronto and Hamilton areas are being planned.

Group homes for juveniles will be established in a number of communities in the coming year, sponsored by community-based organizations, in keeping with the policy of my Government to increase its involvement in support of community programs.

New clinical facilities are being provided to expand on the present treatment programs for prisoners with drug abuse and other problems. These new facilities will ensure that treatment in a modern clinical setting is available to all such offenders.

My Government will continue the mineral exploration assistance program initiated last year as a means of encouraging mining exploration in Northern Ontario.

The Government's resources transportation program in the North of our Province will include the construction of major roads in a northwesterly direction from Pickle Crow and Red Lake.

The Board of Directors of the Ontario Development Corporation and the Northern Ontario Development Corporation will be enlarged and their membership further diversified.

New policies concerning investments and loans, giving preference to Canadian-owned enterprises, will be introduced, and loans under the Venture Capital Fund, for businesses employing new technologies and for assistance in the growth of smaller enterprises, will be broadened.

My Government is aware of the current changes in world trading patterns and their possible effect on Ontario. Particular attention will be given to the changes affecting our exports to Great Britain, the European Common Market and to the United States.

To facilitate the gathering and dissemination of information for our business community, additional trade offices will be opened in new locations, as warranted by our export interests, including the establishment of an office in Washington, D.C.

It is my Government's intention to expand its activities in the field of industrial research and development, metric conversion and international standards and specifications, and to take all effective and practical steps to decrease Ontario's reliance on imported technology.

The Legislature will be asked to consider further amendments to the Ontario Paperback and Periodical Distributors Act, designed to encourage the distribution and sale of our own national or provincial publications.

The Government will have ready its proposals for a system of off-track betting facilities to be administered by a provincial government board with representatives from the various areas of the racing industry, as soon as the Criminal Code of Canada is amended to permit this. The Government's belief is that this Province, and any other Province which desires to do so, should be given the exclusive jurisdiction, by federal enactment, to control and administer this activity.

My Government believes, as do the people of Ontario, that our political system has been well served by municipal representatives, many of whom have accepted public office and responsibility at some personal sacrifice. A few of these elected officials from time to time have found themselves, inadvertently or otherwise, in a conflict of interest position between their public responsibilities and their private interests. Due to the wide area of public concern in this matter, studies have been circulated to a number of municipalities and organizations, seeking their reactions. These are presently under consideration and it is my Government's intention to introduce legislation during the current session to clarify any ambiguities that presently exist.

The programs outlined on this occasion have been the object of intensive scrutiny and thought on the part of the Government, as being in the best interests of the people of Ontario. We look forward with confidence to a fresh and revitalized approach to many complex problems of our society, and to the purposeful deliberations of the Honourable Members of this House.

May Divine Providence guide you in this task.

God bless the Queen and Canada.

His Honour was then pleased to retire.

TENTH DAY

MONDAY, MARCH 13TH, 1972

PRAYERS

2.00 O'CLOCK P.M.

Replying to a point of Order raised by the Member for High Park, Mr. Speaker ruled as follows:—

On Friday I undertook to take into consideration the allegations made by the Member for High Park and others respecting an answer of the Minister of Public Works in the oral question period.

At the outset, I feel that I should point out to the House that the rules governing the conduct of Members are based on the assumption that all Members are ladies and gentlemen and, as Lewis says at page 24 "the conduct of Members in the House is based on an etiquette of mutual consideration", and the 18th edition of May at page 418 says "good temper and moderation are the characteristics of parliamentary language", and it is for this reason that the Standing Orders and precedents specifically provide that no Member may accuse another of a deliberate falsehood or of deliberately misleading the House.

The Member for High Park attempted to circumvent this Standing Order by changing his expression to "dissembling to the House".

In the 1958 edition of Funk and Wagnall's Standard Dictionary, I find that the word dissemble is defined in part as "to conceal or disguise the true nature of intentions, feelings, etc., so as to deceive, to dissimulate."

While I feel that this comes very close to offending the Standing Order, it is not so clearly an accusation of misrepresentation or falsehood, that I feel it incumbent on me to deal further with that expression.

Referring to the Minister's response to the accusation, I can only say that, based on the presumption heretofore mentioned, parliamentary practice dictates that one Member must, as far as his conduct in the House is concerned, accept the explanation or denial of another Member. The Leader of the Opposition was quite correct in his observation that the Speaker cannot set himself up as a Judge as to who is telling the truth between two Members; he cannot and should not.

All Members are, of course, entitled to their own opinion, but as far as the procedure in the House is concerned the accusation having been made and answered that is the end of it.

Mr. Lewis, moved, seconded by Mr. Deans, that this House directs the Standing Committee on Resources Development to call before it the Workmen's Compensation Board, this Wednesday, March 15th, at 10.00 a.m. and any

subsequent Wednesdays as the Committee may determine, specifically to inquire into matters raised by the Minister of Labour's statement of to-day.

The motion having been put was lost on the following division:—

The following Bill was introduced and read the first time:—

Bill 23, An Act to amend The Public Health Act. *Mr. Leluk.*

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

It has been alleged on two occasions in the House that there is a parliamentary tradition to the effect that any Member who wishes to may take part in the debate on the Motion for an Address in Reply to the Speech from the Throne I beg to inform the House that no such tradition in fact exists.

On the contrary, in the House of Commons of Canada, by Standing Order No. 38(1), the debate is expressly limited to eight sitting days.

In the United Kingdom, the debate is, in practice, restricted to five or six sitting days, the average time spent being in the order of 35 hours. Members wishing to participate must get on their Whip's list, and the number who are successful in doing so is limited.

I was asked to rule on the application of our Standing Order No. 25. As the date on which the Budget is presented to the House by the Treasurer is entirely in the discretion of the Government, the application of this Standing Order is, I suggest, quite clear.

Once the date of the Budget presentation has been announced, the Throne Debate must terminate not later than the sitting day prior to such presentation.

I believe this was the expressed recommendation of the Select Committee whose report led to the adoption of the present Standing Orders.

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The debate was resumed.

PRAYERS

2.00 O'CLOCK P.M.

The following Bill was introduced, read the first time and referred to the Private Bills Committee:—

Bill Pr5, An Act respecting The University of Waterloo. *Mr. Good.*

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Yesterday, the Member for Scarborough West introduced a motion under the Routine Proceedings to refer a matter to a Standing Committee. At the time and without an opportunity of referring to the precedents, and as the Standing Orders gave me no guidance as to whether this motion should be considered routine or substantive, I felt that I should allow the motion to be put to a vote of the House. It is true that the Leader of the Opposition made some reference to the fact that previous Speakers had ruled that such motions required notice and could only be considered in the Private Members' Hour, but, I am afraid I did not catch the full significance of this observation. I now find that precisely the same procedure was attempted on Tuesday, May 18th, 1971, by the same Member and was disallowed by the then Speaker, who proceeded on Thursday, May 20th, to deliver a very comprehensive ruling on this point, based in part on a ruling of the Speaker of the House of Commons of Canada, of Tuesday, May 2nd, 1961. In that ruling the Speaker of the House of Commons made two quotations from Beauschene which I consider very important; firstly, "It is a very fundamental rule that with the exception of certain matters dealt with under Routine Proceedings, no question can be considered by the House unless it has been previously appointed, either by a notice or a regular order of the House", secondly, "All motions referring to the business of the House should be introduced by the Leader of the House."

The ruling of Mr. Speaker Cass is very complete and precise and I refer the Members to it at page 74 of the Journals of 1971. The importance of that ruling at the present time is that the routine procedure MOTIONS is not open to Private Members, but is intended only for the routine motions respecting the business of the House and must be moved by the Minister leading the House at the time. I consider that ruling, well based as it is on sound authority, to be binding.

Mr. Breithaupt moved, seconded by Mr. Nixon (Brant),

That all the words after "That" be struck out and the following substituted therefore:—

"this House regrets the regressive and inequitable increases in taxation proposed by the government in an attempt to pay for the programs and increased expenditures announced prior to the election;

in particular, the imposition of higher post-secondary tuition fees which together with the decrease in the financial assistance available to students seriously restricts the availability of continuing education; and this House regrets the bad judgment of the government in continuing the tax rebate on production machinery which has been shown to have no significant effect on the availability of employment."

The debate continued.

THE EVENING SITTING

8.00 O'CLOCK P.M.

The debate continued further, and after some time

Mr. MacDonald moved, seconded by Mr. Lewis,

That the amendment to the motion of the Treasurer be amended by adding thereto the following words:—

"We regret the failure of the Government to recognize the fundamental economic problem of continuing high levels of unemployment and continuing inflation, and the resulting failure to initiate any procedures or mechanisms to stabilize the economy and reduce the cost of living by such measures as: a public automobile insurance plan; rent review boards; public scrutiny of utility costs, etc.

We regret the inability of the Government accurately to assess the capital equipment investment programme of industry.

We regret the failure of the machinery tax credit programme to stimulate the economy and provide job opportunities so badly needed.

We regret the decision of the Government to impose a miscellaneous hodge-podge of regressive tax increases which are unnecessary because of the \$100 M unused machinery tax credit.

We call on the Government:

To withdraw the following tax increases:

1. the gasoline tax
2. the motor vehicle tax increase
3. the tobacco tax increase
4. the increased fee for use of provincial parks

5. the toll increase on provincial bridges
6. the GO-Transit fare increases
7. the educational tuition fee increases
8. the fee increase for motor vehicle licences

We reject the principle of increased prices for beer, wine, liquor and tobacco which provide manufacturers with windfall profits at the expense of the consumer without any justification.

We regret the intent of the Government to restrict access to post-secondary education through increased fees and reduced student aid, and urge as an alternative a student aid system which will assure equal access for all income groups based on ability to meet whatever standards are established."

Ordered, That the debate be adjourned.

The following Bills were introduced and read the first time:—

Bill 60, An Act to amend The District Welfare Administration Boards Act. *Mr. Brunelle.*

Before the Orders of the Day, Mr. Speaker delivered the following Rulings:—

Last week the Member for High Park stated that he had been informed that his telephone conversations with the Workmen's Compensation Board had been recorded on tape, and asked me to declare this a breach of privilege. While I am unable to find that it breaches one of those special privileges which the Assembly and the Members thereof enjoy, which other citizens do not, nevertheless, if proven, such action might well constitute a contempt, in that it might be considered to obstruct or impede a Member in the discharge of his duty. As the Honourable Member has asked me to deal with this matter, I wish to inform the House that I will write to the Chairman of the Workmen's Compensation Board advising him that if such action has been taken in the past, it should be discontinued forthwith. This is, of course, without prejudice to any action that might be instituted in a Court of Law.

On the same day the Member for Scarborough West asked me to rule as to whether the speech made by the Chairman of the Workmen's Compensation Board to the Empire Club constituted a breach of the sub judice rule. Obviously it does not. The sub judice rule, of course, applies only to things said in this House or the Committees thereof. I remind the Members of the reason for the rule. It is so that the rights of a person may not be prejudiced by remarks made in this Assembly, the governing body of the Province, which statements are privileged, so that the offended person does not have the normal right of recourse through the Courts.

Mr. Davis moved, second by Mr. Winkler, That, for the purpose of its enquiry into the Workmen's Compensation Board only, the Standing Resources Development Committee be empowered to engage counsel to assist the Chairman and Members of the Committee in the enquiry, including the questioning of witnesses, and that persons whose interests may be affected by the enquiry, be allowed counsel to advise and assist them, which counsel may question witnesses only through the Committee counsel; also, that for the duration of this enquiry the Committee be authorized to sit concurrently with the House and have its proceedings recorded and transcribed by the Hansard Office.

And a debate arising, Mr. Nixon moved in amendment, seconded by Mr. Good, That, the motion be amended by adding thereto the following words:—

That this House instruct the Committee to determine:

1. the facts surrounding the termination of active duty by the former Vice Chairman of the Workmen's Compensation Board, Mr. John Cauley;

2. whether public monies or monies controlled by the Workmen's Compensation Board were improperly or wastefully spent;
3. whether the responsible Minister properly carried out his duty in the disposition of the termination of Mr. Cauley's service;
4. such other matters as pertain to the Workmen's Compensation Board concerning remission of levies for poor safety records and the use of Workmen's Compensation Board trust funds in private development;
5. whether or not these and related matters warrant further investigation by a judicial enquiry.

The debate continued and, after some time

The amendment to the motion was lost on the following division:—

Bill 62, An Act to amend The Municipal Act. *Mr. Lane.*

Bill 63, An Act to amend The Highway Traffic Act. *Mr. Shulman.*

Bill 44, An Act to amend The Succession Duty Act. *Ordered for Third Reading.*

Bill 45, An Act to amend The Security Transfer Tax Act. *Ordered for Third Reading.*

Bill 43, An Act to amend The Tobacco Tax Act.

Mr. Grossman moved Second Reading of Bill 46, An Act to repeal The Logging Tax Act,

A debate arose and after some time,

Mr. Lawlor moved, seconded by Mr. Ferrier, That the motion for second reading of Bill 46, intituled "An Act to repeal The Logging Tax Act", be amended by deleting all the words after "That" and substituting therefor the words:—this bill not now read a second time in order that: (1) The government consider its basic policy with respect to natural resource taxation, and in particular respecting the structure of taxation in the area of Forestry Resources. (2) With the elimination of The Logging Tax Act, what has been a source of substantial revenue in past years is being abolished without comparable alternative benefits being conferred on the Consolidated Revenue Fund, in a manner set out in the Recommendation of the Ontario Committee on Taxation or otherwise, and any responsible government ought to pause before such a situation. (3) Further consideration be given to expanding the revenue yield from this natural resource, which is in a continual process of decline, by revising the Crown dues concept, or by proceeding on a tenure principle, which will effectively increase the said yield; or, at the very least, place in some balance the expenditures of the Provincial Government on reforestation and fire protection services against the income derivable from this source. (4) Some profound thought be given to the principle of "economic rent" as outlined cursorily by the said Committee and by the Select Committee on Taxation, as the fundament upon which to guide taxation policy in this area of our partially renewable resources.

And after some time the question was put and a recorded vote was requested which was deferred with Bill 40.

Mr. Grossman moved Second Reading of Bill 48, An Act to amend The Retail Sales Tax Act,

A debate arose and after some time,

In the absence of Mr. MacDonald, Mr. Lawlor moved, seconded by Mr. Renwick, That the motion for second reading of Bill 48 intituled "An Act to amend The Retail Sales Tax Act" be amended by deleting all the words after "That", substituting therefor the words:—this Bill be not now read a second time, in order that it may be withdrawn for redrafting in order not to penalize the small retail merchant by imposing upon him statutory obligations, without compensation, involving financial outlays and expenditure of time and energy; and that in order to reduce administrative problems, consideration be given to compensation being paid on the basis of a flat rate of not less than the average presently received by the small retailer, and that it be paid to each retail outlet, irrespective of its volume of sales.

And after some time the question was put and a recorded vote was requested which was deferred with Bill 40.

The following Bills were introduced and read the first time:—

Bill 173, An Act to control Promotional Games. *Mr. Shulman.*

Bill 174, An Act respecting Ghost Written Term Papers and Examinations
Mr. Roy.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:

Yesterday a question was raised regarding the exclusion of the Press from meetings of the Public Accounts Committee, and reference was made to Standing Order 7, which states that "All strangers may be excluded from the House on a motion properly moved and adopted by the House."

Rule 1 (a) states that the proceedings in the Legislative Assembly of Ontario and in all Committees of the Assembly shall be conducted according to the Standing Orders as adopted on April 22, 1970, and it, therefore, follows that Standing Order 7 would apply to proceedings in the Public Accounts Committee.

On February 15 of this year an opinion was provided to the Chairman of a Select Committee of this House, which opinion I had not read until late yesterday afternoon, to the effect that the word "strangers" as used in Standing Order 7 applied to everyone except the Members and the Officers of the House, and would therefore apply to members of the Press.

I am sure that Standing Order 7 was included in our rules for a purpose but I am equally sure that the provisions of that particular rule have not been applied in this House for a good many years at least. There are, however, precedents in other jurisdictions where the rule has been applied to proceedings in Committee, for various reasons, and in this Legislature it has been customary to exclude the public and the press from Committee Meetings at which their reports are being drafted. This is essential as any publication of the contents of a Committee Report prior to its presentation in the House would not be proper.

My attention has been drawn to the fact that the Public Accounts Committee, without so much as the adoption of a motion to do so, had barred the press and public from their deliberations at yesterday's meeting. The Hansard reporters were also asked to "remain in the hall outside". In these busy times it does seem somewhat undesirable to arrange public meetings at which Hansard coverage has been requested, and then, without notice, to bar the public, press and Official Hansard staff for indefinite periods of time.

In view of the foregoing, I, therefore, rule that Standing Committees of this Assembly may properly continue the practice of excluding the public and the press from their meetings at which their reports are being drafted but that exclusion of the public and the press at any other times be only on a motion properly moved and adopted by the House.

I might add that, while the rulings of a Speaker may not be debated, they may, of course, be challenged. In my opinion there is a lack of clarity in our

Standing Orders in respect to the ruling I have just made and I recommend that, if the House does not agree with my ruling and does not challenge the same, the entire matter should be referred to the Procedural Affairs Committee with a view to clarifying the rules.

The House, according to Order, resolved itself into the Committee of Supply, to consider Estimates of the Ministry of Revenue, and after some time,

Mr. Speaker resumed the Chair, and the Chairman reported progress, also, That the Committee had directed him to ask for leave to sit again.

Ordered, That the Report be received.

Resolved, That the Committee have leave to sit again.

The House then adjourned at 6.00 p.m.

Before the Orders of the Day Mr. Speaker addressed the House as follows:—

On Tuesday, November 21st, I was asked to comment further on the question of privilege relating to the publication of a committee report before it is presented to the House, particularly in view of an editorial published on that date.

The privilege in question is simply the right of the House to be informed first of matters relating to its business, whether it be a committee report, a statement of policy by a Minister of the Crown, or whatever. This is a right which, on occasion, I have personally heard very vociferously defended on all sides of the House. In all jurisdictions it has always been recognized that a breach is committed, not only by the informant, but by the reporter and the publisher. However, if the present Members of the Assembly do not wish to insist upon this privilege, that, of course, is their decision, and the remedy is simple. They need only refrain from taking action in any given case; but, I suggest that before any positive step is taken to permanently rescind this privilege, the Members should think about it very seriously.

We regret the inability of the Government accurately to assess the capital equipment investment programme of industry.

We regret the failure of the machinery tax credit programme to stimulate the economy and provide job opportunities so badly needed.

We regret the decision of the Government to impose a miscellaneous hodge-podge of regressive tax increases which are unnecessary because of the \$100,000,000 unused machinery tax credit.

We call on the Government:

To withdraw the following tax increases:

1. the gasoline tax increase
2. the motor vehicle tax increase

3. the tobacco tax increase
4. the increased fee for use of provincial parks
5. the toll increase on provincial bridges
6. the GO-Transit fare increases

We reject the principle of increased prices for beer, wine, liquor and tobacco which provide manufacturers with windfall profits at the expense of the consumer without any justification.

We regret the intent of the Government to restrict access to post-secondary education through increased fees and reduced student aid, and urge as an alternative a student aid system which will assure equal access for all income groups based on ability to meet whatever standards are established."

Bill 253, An Act to amend The Jurors Act.

Bill 256, An Act to provide for the limited inclusion of Grapes grown outside Ontario in Ontario Wine.

Bill 262, An Act to amend The Credit Unions Act.

To these Acts the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

"In Her Majesty's name, the Honourable the Lieutenant Governor doth assent to these Bills."

Mr. Speaker then said:—

MAY IT PLEASE YOUR HONOUR:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain additional sums of money for the Public Service for the fiscal year ending the 31st day of March, 1973."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

The conclusion of the second session of the twenty-ninth Parliament of Ontario marks just over a year of activity and endeavour in the life of this Assembly, and also affords an appropriate opportunity for a year-end review of events pertinent to the members of this House and to the people of Ontario.

Three serious natural misfortunes have afflicted portions of our population in recent months. In mid-June, frost severely damaged crops in southwestern Ontario's farm lands. Farmers in Eastern Ontario suffered crop losses as a

result of torrential rains in July. Last month's storm and flooding in the south-western counties of Essex and Kent happily took no lives, but brought great hardship on the residents. Ready assistance was given to those who suffered losses in these circumstances as a result of deep concern by both the Government and people in other parts of Ontario. We commend highly the steadfastness and courage of individual families and local organizations in the face of these difficulties.

At the onset of another winter season, we face the lingering problem of a less than happy employment situation. Accordingly, my government has taken steps to provide for approximately 29,000 jobs at this time in structured and worthwhile activities that will be of value both to the community and to those employed. The greater share of this assistance, amounting to \$35 million, will be allocated to local municipalities for the municipal employment incentive program. Another \$15 million will be spent directly in provincial ministerial programs.

While such pressing needs must be met, government is also faced with the task of not placing too great a burden on those who are able to contribute in larger measure to the community as a whole. Through a new Property Tax Credit Plan announced early in the year, the province will refund \$160 million to property owners and tenants as part of the government's continuing effort to make taxation more equitable. The recently completed Guelph study confirmed that property taxes bears heavily on low-income families and pensioners, and offered the assurance that the Ontario Tax Credit Plan will offset this regressive effect by delivering tax reliefs where it is most needed. The new plan replaces the Residential Property Tax Reduction system which was in effect over the previous four years.

In the interest of accurately determining the province's long-term economic objectives, my government has established a joint Committee on Economic Policy, composed of business, labour and government representatives. This measure was taken in response to the work of the Select Committee on Economic and Cultural Nationalism, as were a series of proposals announced in June for a sound foreign investment policy, and specifically with respect to companies that are within the jurisdiction of this province.

Last spring a complete reorganization of the structure of the government was made with the aim of improving and updating its policy-making and operational functions. My government is pleased with the new organization, which has resulted in a revitalized and flexible administrative system. We look ahead with high expectations for the proposals with respect to the Legislative Assembly itself, as will be made by the Commission appointed last June for this purpose.

Our achievements in the expanding area of social services include the creation of a new comprehensive Ontario Health Insurance Plan for all health care services, and the provision of extended health insurance in nursing homes and homes for the aged.

In recent weeks my government announced measures to improve the efficiency of our health delivery systems, which, as a result of government

responsiveness to public need in this area over the past few years, have provided an adequate network of hospital and health care facilities for the people of Ontario.

The same is true in the field of education, where the construction of facilities over the past decade has kept pace with a rapid rise in school, college and university enrolments. My government is confident our school and university administrators will put all facilities to their best and fullest use, so that scarce funds may be used to best advantage.

At the start of the current academic year, the government provided increased financial assistance through the Ontario Student Aid Program by lowering the requirement for independent students to age 24, a step that will be of benefit mainly to our graduate students and students in the long-term professional programs. An expanded summer employment program provided 18,500 student jobs at a cost of \$21.4 million.

A few days ago the government announced future plans for programs affecting the young people of this Province, and especially for student summer employment projects both within government and in the private sector. Coordinating responsibility in this area is being entrusted to a member of the Cabinet, with individual ministries retaining operating responsibility for any youth-oriented programs within their portfolios. The existing Interdepartmental Committee on Youth will act in an advisory capacity to the new Youth Secretariat.

My government is pleased to record progress in a \$10 million province-wide day care project in which it offered to pay 100% of the cost of centres approved for construction during the past winter and completed by July 31, 1972, with support to 80% of costs after that date. As a result of the program, 62 new day care centres are almost completed with planned accommodation for about 3,000 children.

Of these 62 new facilities, 44 are being operated by municipalities, 9 by Indians Bands and another 9 are being run by groups associated with the Ontario Association for the Mentally Retarded.

The Ministry of Community and Social Services shares in changing public attitudes on the need for these facilities. About 880 centres are now in operation across the province, and are caring for an estimated 37,000 children.

Efforts have been continued toward ensuring that all citizens have good shelter and toward reducing the financial barriers, brought about by spiralling prices, that face many families who wish to own a home. In September the Ontario Housing Corporation announced an adjustment to some of its mortgage lending regulations in a speedy reaction to new ceilings for mortgage lending under the National Housing Act. One adjustment now allows 100% of a working wife's total income to count towards total family earnings under provincial lending regulations of the Home Ownership Made Easy program. In addition, the maximum proportion of family income now allowed for principal, interest and taxes in mortgage funding is raised from 27% to 30%. Possible inflationary effects of these changes are expected to be minimal because of the comparatively low cost of houses under the HOME plan and the added fact that the land is leased at cost to the purchaser.

My government fully appreciates the problems that remain to be tackled in this area. To this end, an Advisory Task Force on Housing Policy was appointed in mid-November, to examine the current housing situation in the province. The Task Force, under the chairmanship of Professor Eli Comay of York University, is also charged to report on the appropriate role of the Ontario Government in relation to other levels of government, the business sector and private citizens.

My government has made significant advances with respect to its resources policies. Basically, many of these reflect on the vital issues of land use and land use controls. An agricultural land use study is under way in Southern Ontario to provide guidance for public planning in the preservation of farm land for food production.

As announced just weeks ago, the government expects publication shortly of the report of the Niagara Escarpment Task Force, which will undoubtedly have far-reaching effects on land use planning for other areas of the province as well.

Growing public concern for the ecology has been matched by strong measures by the Ministry of the Environment, ranging from a regulation banning disposable 3-quart polyethylene milk jugs to the province's role in encouraging negotiations that culminated with the signing of a United States-Canada Great Lakes Anti-Pollution Agreement in Ottawa last spring.

The year has not gone by without its share of labour problems and strikes. My government is taking steps to minimize these occurrences in future and the hardships they impose on the workers involved and on the general public. In the construction industry, in recognition of the need for more effective settlement machinery in collective bargaining, a review panel has been established to work for a program of settlements on a year-round basis. In this way the government hopes a measure of peace will be brought to major bargaining negotiations scheduled to take place next year.

The 15th of June was the tenth anniversary of the proclamation of the Ontario Human Rights Code. The event is being marked by a comprehensive overhaul of the code to strengthen and clarify it and bring it up-to-date in terms of the needs and requirements of the many newcomers to our province. Equal opportunity in employment is still the cornerstone of the Ontario Human Rights Code. But above and beyond this, equality of opportunity must be assured to all residents, enabling all to give of their best to the economic, social and cultural enrichment of our province regardless of race, creed, colour, sex, nationality, ancestry or place of origin.

A new trade and travel centre, located in Toronto, was opened by the Ministry of Industry and Tourism in September. The main purpose of the centre is to stimulate Ontario business at home and abroad. Ontario's tourist industry will benefit from the existence of a travel enquiry facility in the centre. Business interests are able to secure information related to industrial programs, tariffs and transportation, as well as information for prospective buyers on Ontario's business capacity and potential.

Two intra-provincial agencies, the Ontario Development Corporation and the Northern Ontario Development Corporation, have been given decentralized lending authority for loans to small businesses throughout the province. Other initiatives in this area include the establishment earlier this year of a \$5 million fund for short-term loans to small and medium-sized manufacturers who sell to foreign markets but are ineligible for federal financing.

Phase III of the Government's Design for Development program as announced in June is geared to future government initiatives in the three following areas: provincial-regional social and economic planning policy; local government reform policy; and provincial-municipal fiscal reform policy.

Ontario is pleased to have been host for the first tri-level conference of federal, provincial and municipal representatives which took place last month as a medium for successful exchange and consultation on a variety of inter-related subjects.

One dilemma facing city governments all over the world is how to come to grips with already existing or potential problems of overcrowding, congestion and stress, and that twice-daily phenomenon of urban life—the rush hour. While it is recognized that the vitality of the city depends on cars and commercial vehicles continuing to play key roles in the overall transportation scene, their unrestricted use during the peak hours of travel to work and back has been making transportation problems critical. Additional and alternative means of moving people and goods must be found.

My government has committed itself to assist municipalities in a far-reaching urban transportation policy for Ontario, based on improvements to existing public transportation systems in all our cities, and a proposed new intermediate capacity system for the three most populated municipalities.

The proposals include increased provincial subsidies to municipalities for the purchase of buses, streetcars and trolley buses. More provincial resources are also being made available to upgrade and expand computer-controlled traffic systems and maximize the use of existing roadways. In summary, the province has undertaken to direct increased efforts and resources to the coordination of transportation planning among Ontario's municipalities.

The Ontario Government is confident that the implementation of recently announced measures will help preserve in our cities the capacity to ensure a full range of services for the people who live and work in them.

In the pursuit of an ideal of justice as perceived by our society as a whole, Ontarians can indeed be proud of the proclamation, on April 17, 1972, of legislative reforms clearly establishing the rights of the individual against the power of the state. This legislation culminated a long series of reforms since 1964, as a result of recommendations by The Honourable Mr. Justice J. C. McRuer in the Ontario Government's Royal Commission Inquiry into Civil Rights. The all-pervasive implications of the individual's rights in society as interpreted in these reforms are a reflection of the high ideals of the people of this province, and as such stand to be cherished and revered by all Ontarians.

The consumer credit system by which most people in our society are able to obtain some of the goods and commodities that go with a pleasant way of life has left itself open to abuse of the privacy of the individual. My government has therefore introduced new legislation to regulate the giving of consumer reports and govern the disclosure and review of such information. It is also intended to establish controls with respect to an individual's credit history, health and personal character.

This review of some of the achievements of the second session of the twenty-ninth Parliament of this province is evidence of its having been a full and productive one. Other legislation of great significance of the people of Ontario was placed before the members of this Assembly, examined and given approval and assent.

You hold in your charge the affairs of the people of this province who in turn look to you to continue to bear that trust with the dedication and will that you have shown in the past year. I share your hopes for the future of this province and of our country and join with its people in commending your contribution toward the achievement of these aspirations.

In declaring this session prorogued, I would take the opportunity, on your behalf, to express greetings of the season to all the people of Ontario. I pray also that Divine Providence may guide each of you through a safe and pleasant holiday with your families and with those whom you represent here.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

The Attorney General then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

The following Sessional Papers were tabled:—

Report of The Public Service Superannuation Fund for the year ended March 31, 1972 (*No. 111*).

Return to Question 27 by Mr. Nixon (Brant) (*No. 112*).

LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this fourteenth day of February in the year of Our Lord one thousand nine hundred and seventy-three and in the twenty-second year of Our Reign.

BY COMMAND

JAMES SNOW
Minister of Government Services

Tuesday, the twentieth day of March, 1973, being the first day of the Third Session of the Twenty-ninth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable W. Ross Macdonald, P.C., C.D., Q.C., LL.D., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

I extend my warmest greetings to you on this occasion of the opening of the Third Session of the Twenty-ninth Parliament of Ontario. On behalf of our Sovereign I convey best wishes to the Premier and to my Ministers and to all Honourable Members.

Je tiens à vous souhaiter à tous une chaleureuse bienvenue en ce jour d'ouverture de la troisième session de la vingt-neuvième Législature de l'Ontario. Je veux présenter, au nom de notre Souveraine, tous les meilleurs vœux au Premier ministre, à mes ministres et aux honorables membres.

The people of Ontario and Honourable Members of this Assembly share the honour and pleasure afforded them by the Gracious presence of Her Majesty, Queen Elizabeth, and His Royal Highness, Prince Philip, on the occasion of their visit to Canada this summer. This Royal visit will provide her Majesty's loyal subjects the opportunity to accord a warm welcome to their Queen and to His Royal Highness.

Honourable Members, the Province's economy has been strengthened considerably in the past year and has enjoyed the fastest growth rate in the level of employment in over a decade. My Government expects this trend to continue in 1973 with an increase in real growth of goods and services of 6.0 per cent this year, compared with an estimated 5.5 per cent gain in 1972.

Despite the continued rapid growth of the labour force, the average unemployment rate has declined from 5.2 per cent in 1971 to 4.8 per cent in 1972, and a record 140,000 new jobs were created. This achievement compared favourably with Canada as a whole, where the unemployment rate last year remained virtually unchanged at 6.3 per cent. A moderation in the labour force growth in 1973 combined with the continuing expansion in job opportunities should further improve the Ontario employment picture. Indeed, on a seasonal basis, unemployment in Ontario was 4.1 per cent in February of this year compared with 4.6 per cent in February 1972.

Ontario's fiscal policy in the past two years has played an important part in alleviating unemployment including such measures as personal income tax reductions and selective expenditure increases made by the Province which have had a favourable influence on subsequent federal policy.

In its continuing activities in the development of medium and long-term provincial economic objectives, it is my Government's intention to use the resources of the Joint Committee on Economic Policy to study and recommend policies for Provincial implementation and to develop positions concerning economic and industrial policy coordination between the Province and the Government of Canada.

My Government proposes to strengthen the Ontario Economic Council to support its independent studies of the Ontario economy.

All are aware of the rapidly increasing rate of change around us. The steadily increasing and more concentrated population and the resulting pressure on land create a wide range of new policy imperatives.

It is clear that the preservation of our physical resources is one of the most urgent requirements facing all governments today. The most important of these resources is land. My Government will place before you proposals for major new programs designed to ensure sound planning and to preserve this resource for the use and advantage of future generations.

Two major studies undertaken by the Government have now been received and action will be taken with respect to their implementation.

My Government will introduce legislation which will ensure the preservation of the Niagara Escarpment. Such proposals will be balanced to permit mixed

uses compatible with the preservation of the ecological and historic features of this physical landform which is a unique feature of our Province.

In this connection my Government will establish a Niagara Escarpment Commission to be responsible for the overall planning of physical resources and to ensure that Government policy to preserve the Escarpment is carried out. The total area subject to planning and control in the public interest will be in excess of one million acres.

My Government is prepared to proceed with plans for a Parkway Belt System from Dundas in the West to Oshawa in the East. This Parkway Belt will provide for the orderly channeling of services and utilities that are the essential support systems of urban Southern Ontario, while affording opportunities for the preservation of open space, and providing for the separation of individual urban communities.

One of the primary purposes of the reorganization of local government structures is to encourage more effective planning at the local level, particularly in regard to the control and use of land. My Government believes it essential that the public be increasingly involved in this process. In this regard my Government intends to initiate a major review of The Planning Act and other legislation related to land development.

My Ministry has received proposals regarding regional government both East and West of Metropolitan Toronto and will introduce legislation in this regard.

My Government believes that a strong and reformed local government is in the best position to determine its own priorities, and proposes to transfer to strengthened local governments more authority and responsibility for many of the decisions that relate to local matters.

My Government will take steps to ensure proper policy coordination of initiatives involving land use controls where agricultural lands are concerned so that good farm land may be retained for agricultural purposes.

My Government will introduce legislation to implement recommendations contained in the Interim Report of the Select Committee on Land Drainage.

As a result of its review of the Report of the Select Committee on the Ontario Municipal Board, my Government will place before you proposals to make the Board a more effective vehicle for discharging its responsibilities.

My Government will continue to work for the fullest cooperation with the Federal Government and other provincial governments and looks forward to a number of joint meetings in the coming months. Among them will be the conference of Welfare Ministers next month which, it is hoped, will provide for the development of an integrated approach to income security programs. The Province is well aware of the implications for our municipalities of many of these policy negotiations and will continue to encourage active municipal representation and participation in Provincial negotiations with the Federal Government.

New policy initiatives in the energy field are a matter of active and intensive consideration.

In its concern about changes taking place in the field of energy, Ontario fully recognizes that actions taken now and in the near future by governments both in Canada and abroad will have a profound impact on the supply and cost of energy and, in turn, on the very foundation of our economic progress. The Province is equally aware of the need to place questions on energy in a balanced social perspective to protect the environment as well as the economic interests of the citizens of this Province. New policy initiatives establishing agencies for energy may be expected as well as changes in the role and place of the Hydro Electric Power Commission of Ontario. These proposals will be based on the reports of the Advisory Committee on Energy and Task Force Hydro.

My Government has already acted in relation to specific matters involving potential and significant environmental considerations, such as the Solandt Commission on the proposed Nanticoke-Pickering hydro line and the Task Force to study the potential of the lignite fuel deposits in Northern Ontario.

In the knowledge that similar matters will arise in future which will require intensive and expert study and analysis, my Government will place before you legislation to establish a permanent agency for environmental protection, having the responsibility for a comprehensive system of assessment and evaluation of the environmental significance of activities of ministries of the Government, utilities, projects funded in part by the Government and related activities in the private sector which have comparable environmental implications.

On receiving the recommendations of the Task Force of the Ministry of the Environment, my Government will introduce legislation on the disposal of solid waste.

With respect to the program initiated last year to remove abandoned automobiles from the landscape, new regulations will be introduced providing simplified and more rapid procedures for divesting the title in derelict vehicles to hasten their removal. Other controls will be introduced with regard to locations where these vehicles are collected.

Measures to control the sale of pesticides and also their use by farmers and foresters are being effectively enforced with the cooperation of vendors and users. Further steps will be taken to strengthen these controls.

It is also the intention of my Government to institute a noise abatement program in cooperation with the municipalities.

The objectives of my Government with respect to environmental matters can only be effectively achieved with the cooperation of the people of Ontario, neighbouring provinces and states, and other nations. Therefore, my Ministers attach particular significance to the fact that the Province of Ontario is to be host to a conference sponsored by the Canadian Council of Resource and Environment Ministers this November.

You will be asked to approve a program designed to increase my Government's activity in forest management. This expanded program includes the

regeneration of cut-over lands, establishing new forests on private land, improving growth conditions in existing forests and preparing idle land for planting or seeding. These measures are designed to help meet Ontario's long-term requirements from its forest resources.

Honourable Members, various development policy initiatives and programs will be reviewed by you including new guidelines for financial assistance to the tourist industry, further support for exports, and industrial development with special emphasis on assistance to small business. An expanded program has been prepared to promote all-season facilities in Northern Ontario and throughout the Province.

In view of the accelerated economic growth expected to take place in the United Kingdom because of that country's recent entry into the European Economic Community, the Premier, the Honourable William Davis, has arranged to lead a special mission of manufacturers and businessmen to visit Britain in May to fully explore the range of new opportunities for increasing exports and investments from Ontario to the British market.

To serve the special needs of communities in Northern Ontario, amendments will be introduced to The Airports Act, designed to improve existing aviation facilities in that part of our Province. My Government will propose to contribute up to 80 per cent of total construction costs for these new airport facilities.

In addition my Government will continue to assume full responsibility for the construction and operation of airport facilities servicing unincorporated Northern settlements, including plans for three new airstrips at Indian settlements at Round Lake, Fort Hope and Pikangikum, and a new runway for the airport at Moosonee.

My Government is also proceeding with plans for the development of a new intermediate capacity transit system to help meet the transportation needs of our larger cities, and is evaluating proposals from two manufacturers of intermediate capacity systems. One of these systems is to be installed as a demonstration project at Exhibition Park in Toronto for operational testing purposes.

As Honourable Members are aware, the Camp Commission on the Legislature is presently studying the procedures and processes of our legislative activities and is giving consideration to certain reforms with respect to party finances and election expenditures. The reports from your Commission will be presented for your consideration and resolution during this present Session.

My Government will ask you to approve the appointment of an independent Commission to redistribute the electoral districts of the Province, and redefine their boundaries.

My Government will propose measures relating to conflict of interest with respect to its civil servants.

My Government will provide increased assistance and encouragement to our amateur athletes through special community-wide athletic and recreational programs, and will be giving full support to the first Ontario Summer Games which will be held in Oshawa this summer.

Following my Government's study of the recommendations of the Symons Commission on French Language Secondary Education, a bill will be put before you to create a Languages of Instruction Commission for Ontario's education system.

Plans for immediate implementation involve expanded services to the Franco-Ontarian community by the addition of more French-speaking staff in the central and regional offices of the Ministry of Education.

My Government will provide increased assistance to the native people of our Province through support for cultural development projects, communication services, and the local management of resources. More teachers will be provided who are fluent in the languages of native peoples, and better teaching materials will be made available in those languages.

To help promote greater understanding of the rich cultural heritage of Ontario's native people, new courses will be designed for the Ontario curriculum, especially for elementary students.

To conserve and maintain Ontario's heritage and history, my Government will propose legislation and make funds available for the restoration and maintenance of selected buildings and structures of historic significance. Local public libraries and existing museums will be given increased financial support.

The report of the Rohmer Commission on Book Publishing has been made available to Honourable Members of this House. A number of recommendations have already been implemented by my Government and proposals will be submitted to you in relation to the further implementation of the Commission's final report.

My Government will present legislation with respect to negotiations between the teaching profession and school boards.

My Government has published a position paper inviting public reaction with regard to future policies and programs for the mentally retarded, with particular reference to community as opposed to institutional living. My Ministers are confident that the response of interested organizations and the general public will be helpful in determining future programs. In the interim, present care systems for our retarded and handicapped will continue to receive direct government support, including additional capital funding for day-care nurseries for retarded children and for experimental projects in new specialized centres for the seriously retarded.

A third regional centre for the hearing handicapped will be opened in London this fall and will provide residential and day-care programs for 250 deaf and hard-of-hearing students. This new facility will serve as a resource centre for Southwestern Ontario so that more children may receive improved educational programs in their own communities.

My Government is appreciative of the cooperation of the Ontario Council of Health Advisory Group on Medical Care Insurance for undertaking a com-

prehensive review of the health insurance plan. My Ministers are determined to maintain the highest standard of medical and hospital care for all our people throughout Ontario and to deliver these services at a reasonable cost.

Advice has been sought from the Ontario Council of Health on the question of Community Health Centres which when considered with the current activities of the special committee on the future delivery of health services will provide a strong blueprint for future policy in these important areas.

My Government will proceed with proposals for a Health Disciplines Act which were tabled in the previous Session and will introduce legislation during this Session to establish a Health Disciplines Board.

Further legislation will be presented to you to strengthen the position and clarify the role of the College of Physicians and Surgeons of Ontario.

My Government proposes to increase assistance to family service agencies, and, in addition, to establish a special counselling and welcoming centre for newcomers to our Province, which will serve as a means to familiarize them with Government services and benefits available to them.

My Government will propose adjustments in the benefits provided under The Workmen's Compensation Act in order to maintain an appropriate level of support reflecting increases in the cost of living and recent adjustments to Provincial wage rates.

My Government will continue its substantial commitment in the field of housing and land development for low and moderate income wage earners. Housing programs will be restructured during the year in light of new amendments to The National Housing Act and recommendations of the Ontario Task Force on Housing Policy. My Government has recently initiated an Integrated Community Housing Program for which Ontario provides development funds at preferred interest rates for the construction of private housing. In return, builders set aside up to 26 per cent of this housing for families requiring assistance.

In the area of consumer and commercial relations, my Government regards as essential a coordinated approach to the development of provincial and federal policies. The Government of Canada has been informed of Ontario's concerns regarding the development of a national competition policy, with the hope that through such consultation more effective legislation may be achieved.

A livestock Medicines Act will be introduced to control and regulate the use of drugs available for agricultural livestock purposes.

My Government plans to reintroduce The Consumer Reporting Act and The Cooperative Corporations Act, both of which have important implications with regard to credit and loan practices throughout Ontario.

Ontario will press for a greater degree of cooperation and coordination with the Federal Government with respect to the administration of justice.

In one area of special concern, the introduction of intermittent sentencing, while essentially a commendable principle, has resulted in a conflict with the well developed temporary absence program of the provincial Ministry of Correctional Services. This has also placed certain difficulties before our judges, and it is most important that clarification of the application of these principles be achieved.

To increase the availability of trained personnel in the corrections field, arrangements have been made with selected community colleges for experimental 'Correctional Worker' courses, using corrections staff to give advice on the curriculum, and offering field training in correctional settings.

My Government will also implement certain recommendations of the Botterell Report to improve health care services for wards and inmates of correctional institutions. The group home program for juveniles will be expanded.

My Government proposes to improve the efficiency of the courts of law. Following studies by the Law Reform Commission and other agencies, plans will be introduced designed to provide a systems concept based on modern management methods. These measures will require a review of our tiered system of justice, the rules of procedure governing the operation of the courts, and new ways of dealing with certain infractions which are handled as criminal offences but which, as is widely agreed, should not be so treated.

Furthermore, my Government will introduce proposals for a system of Crown Legal Clerks to prosecute minor offences under the direction of the Crown Attorney and relieve the police constable of this task.

Amendments will be proposed to The Jurors Act to remove disqualification of people in many occupations and trades and allow greater citizen participation in the jury process. The Grand Jury, as an element in the criminal trial process, will be abolished, and its present function relating to the inspection of public institutions will be retained and performed by a Public Review Committee.

My Government will establish a training program for Justices of the Peace who preside in Provincial Courts, and The Justices of the Peace Act will be amended to clarify their role in relation to that of provincial court judges.

My Government will continue to seek the cooperation of the Federal Government to permit the Province to introduce an off-track betting service.

My Ministry holds the view that support for our law enforcement services must be strengthened. To this end, improved police training facilities, an upgraded communications and information network, and the comprehensive review of policing in Ontario, currently being conducted by a Task Force, are all essential elements of an overall response to growing concerns and expectations with regard to public protection.

To help combat drug-related crimes and the illegal use of drugs, the Ontario Provincial Police will establish a special drug law enforcement program

to be undertaken jointly with municipal forces and the RCMP. The program will place emphasis on controlling the trafficking of hard drugs.

As a result of extensive investigations by our law enforcement agencies, and upon the advice of the appropriate Ministry, my Government will establish a Royal Commission to enquire into the possibility of criminal activities within the plastering, lathing and dry-walling sectors of the building industry in Metropolitan Toronto.

These and other matters will be placed before you for your consideration.

May Divine Providence guide you in your several tasks and in the discharge of your serious responsibilities.

God bless the Queen and Canada.

His Honour was then pleased to retire.

Bill 118, An Act to provide for the Controlling of Hours in Retail Establishments. *Mr. Paterson.*

Mr. Speaker delivered the following ruling:—

Yesterday the Member for High Park raised what he considered to be a matter of privilege, in which he alleged that the Government had announced

a change in regulations without advising the House. I can only point out that once the Legislature has, by statute, given authority to the Ministry to enact regulations in designated areas, then the responsibility is the Government's. Obviously, while acting within the scope of the authority given, the Ministry may change such regulations. Nor do I find that there is any obligation on the Ministry to advise the House of such change, other than by the usual method of publication, any more than in the case of the original regulation. The authority having been given by the House, its exercise does not offend any of the recognized privileges.

FORTY-NINTH DAY

FRIDAY, JUNE 1ST, 1973

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker delivered the following ruling:—

Yesterday, the Member for Ottawa East presented what purported to be a Petition to the House, signed by himself and the Member for Huron, at which time I advised him that, in my opinion, his Petition was not proper, in that it was not a Public Petition. However, I agreed to take the matter under consideration.

Petitions to Parliament were formerly of two types—1. Petitions for or against Private Bills. 2. Public Petitions for the purpose of asking a redress of grievances, or praying that Parliament take some certain action in respect to some matter of public policy, etc. The first type, that is those for or against Private Bills, have been eliminated in this House by the new Standing Orders, leaving only Public Petitions. Lewis, at page 46, states the following:—"The number of Public Petitions presented to the Ontario House during recent years has not been very great but such a process still remains the only way in which a member of the public outside the House can communicate his requests to the Legislative body which governs the Province". From this it will be seen that, in this House at least, Petitions are the method for the public, as distinct from the Members, to bring matters before the House. I note with some interest that the British practice is slightly different. There, a Member may Petition the House to which he belongs, but, if he does, his Petition must be presented by another Member, not by himself. However, I can find no precedent for even this practice in the Ontario House.

In any event, the Member's Petition is faulty in form. A Petition to the House is, as indicated in the quotation from Lewis, already cited, for the redress of a grievance *by the House*. It seeks action by the House, not by a Minister. The Petition presented by the Honourable Member, while properly addressed, asked the Minister of Education to take action, not the House. Such a Petition should be addressed to and sent to the Minister concerned.

I feel that I should avail myself of this opportunity to point out to the House that the correct procedure, as established in this and other jurisdictions, is that when a Public Petition is to be presented to the House, it is filed with the Clerk's Office in advance, so that it may be scanned to ensure that it does not offend any of the Standing Orders or precedents. When the Petition is in proper form and within the rules of the House, the Speaker is then advised in advance by the Clerk's Office that a Petition will be presented on that day.

FIFTY-SECOND DAY

WEDNESDAY, JUNE 6TH, 1973

PRAYERS

2.00 O'CLOCK P.M.

Before the Orders of the Day, the Member for Renfrew-South (Mr. Yakabuski) refused to resume his seat when directed to do so by Mr. Speaker. Accordingly, Mr. Speaker directed the member to withdraw from the service of the House for the balance of this day's sitting.

Mr. Speaker delivered the following ruling:—

After the debate on the adjournment last night I informed the House that I would give further study to the provisions of Standing Orders 27 (g) and 28, in an effort to clear up what seemed to me to be some ambiguity.

The provisions of these two Orders were taken almost word for word from Standing Order 39, subsection 6, and Standing Order 40 of the House of Commons of Canada. Standing Order 40 provides that the Member raising the matter may speak for not more than seven minutes, and the Minister of the Crown, or a Parliamentary Secretary speaking on behalf of the Minister, if he wishes to do so, may speak for not more than three minutes. It, therefore, appears clear to me that the pluralizing of the word "Members" in the eighth line of our Standing Order 28 (a) resulted from a typographical error. In any event the Standing Order clearly provides that no one matter may be debated for more than ten minutes, 5 minutes to the Members raising the matter, and 5 minutes to the Minister. Therefore, even should the plural be allowed, the 5 minutes would of necessity be divided between the Members raising the matter. However, it seems much more logical to recognize the fact that the word "Members" is a misprint and to interpret it in the singular, and I so rule. 28 (a) also provides that, where there are several such matters, the total time allotted to the debate on all is thirty minutes, the Speaker terminating the debates at the end of that period by adjourning the House.

As the Federal House of Commons has had this procedure in their rules for many years, I thought the House might be interested in its application there. On each subject matter the Member who raised it, that is who was dissatisfied with the answer he received in the Question Period, or with the Speaker's ruling that it was not urgent, speaks to it for not more than 7 minutes. A Minister or Parliamentary Secretary may reply for not more than 3 minutes, if he so wishes, the total debate on each subject matter being, as in this House, not more than 10 minutes. At the end of 30 minutes, or when the debates on all the subject matters have been completed, whichever comes first, the Speaker declares the House adjourned until the next sitting day. Two points of their practice are of considerable interest—1. No Points of Order, or any discussion other than the two speeches provided for by the Standing Order are permitted during the adjournment debate. 2. No concern is given to the matter of a quorum. As the debate is technically on a motion to adjourn, a quorum call would simply result in the premature termination of the debate and the House would adjourn. I am told that very often by the time the last matter is being discussed the attendance in the House consists of two, the Member raising the matter and the Minister or Parliamentary Secretary.

Yesterday, the question was raised as to whether a question supplementary to one on which notice had been given under this rule could itself be the subject of a notice for a separate debate. I think it is fair to say that I will deal with such matters as they arise. If I am satisfied that there is a sufficient difference in the point raised by the supplementary question, I will permit a separate debate thereon, but only as the last subject of the adjournment debate, if time permits within the half hour total limitation.

The debate on the motion for Second Reading of Bill 126, An Act to amend The Workmen's Compensation Act, was resumed, and after some time the motion having been put was declared to be carried. And the Bill was accordingly read the second time and *Ordered for Committee of the Whole House*.

The House resolved itself into a Committee to consider certain Bills.

Bill 113, An Act to amend The Ministry of Education Act.

Also that the Committee had directed him to report progress on Bill 126, An Act to amend The Workmen's Compensation Act.

Yesterday, October 11th, Mr. Germa, the Member for Sudbury, introduced a Bill to amend The Ontario Municipal Employees Retirement System Act. I am now in receipt of an opinion from the Office of the Legislative Counsel that this Bill constitutes a money Bill and cannot, therefore, be proposed by a Private Member, as provided by Standing Order 86. The Legislative Counsel's opinion reads as follows:—

"It is the opinion of this office that the proposed Bill in question is a money Bill.

Subsection 2 of section 7 of the Act provides for the payment of interest by the Treasurer of Ontario at a rate which is to fluctuate so as to reflect market conditions at the time the interest is paid.

Since this interest is paid out of the Consolidated Revenue Fund and under today's conditions would probably be at a rate which is higher than the 5 per cent and 6½ per cent rate specified under the Act, this would involve an expenditure out of public moneys."

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

In the past Members have frequently risen on so-called points of order or privilege which are really neither one nor the other. There are instances, however, when it would seem to be reasonable that Members be permitted to make statements that would explain, excuse, justify or apologize for previous errors, misunderstandings, conduct or similar situations. Reference to parliamentary texts reveals that such statements have indeed been permitted as "personal explanations or statements".

The references examined also indicate that permission for making such personal statements has previously been obtained from the Speaker who, upon examination of the proposed statement, should take to himself the authority to permit the statements to be made.

In the future such personal statements will be permitted under the circumstances outlined and should be made at the conclusion of the oral question period.

And further that the Ontario Municipal Employees Retirement System Act should be amended to permit the surplus funds to be invested in municipal debentures as well as provincial debentures in order to broaden the sources of credit available to the municipalities and thus reduce their borrowing costs.

The debate concluded at 6.00 p.m.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Yesterday, arising out of the discussion relative to the reporting of Estimates by Standing Committees, I agreed to take the matter under consideration.

I have now had an opportunity of studying Standing Order 87 and also of refreshing my memory with respect to its application.

Clause (c) puts a precise time limitation on the proceedings in the Committee of Supply, and clause (k) states clearly that at the termination of that time allotment the Chairman shall put all questions necessary to carry every vote and item *not referred to Standing Committees under clause (e)* and such questions are not debatable. This means, of course, that any Estimates not reached by the Committee in the time allotted must be reported without debate.

Similarly, clause (f) provides that Estimates referred to Standing Committees must be so referred within thirty sessional days from the presentation of the Budget and *must* be reported to the House within seventy-five sessional days from such presentation. It seems very clear that such Estimates must be reported not later than the seventy-fifth day, and moreover clause (k), previously referred to, contemplates that the Committee of Supply report only those Estimates not referred to Standing Committees. I believe it was for this reason that clauses (g) and (h) were inserted, providing for a debate of not more than two and one half hours on concurrence in any set of Estimates reported back from a Standing Committee, the time taken by such debates being included by clause (c) in the time allotment for Committee of Supply.

Since the new Standing Orders were adopted in April of 1970, I have never before heard the suggestion proposed by the Member for Scarborough West yesterday. It seemed to be clearly understood that the Standing Committees to whom Estimates have been referred must, if they wish to discuss all Estimates referred to them, arrange their programmes so as to complete their work within the allotted time. It was my understanding that these time limitations were adopted unanimously so that the study of the Estimates might be completed within what appeared to be a reasonable time, having regard to the experience of former years. If the suggested interpretation were given to the Standing Order it would mean that a Standing Committee could use up the whole time provided under clause (f) on one set of Estimates and then demand the remainder be brought back into the Committee of Supply and the time of that Committee extended accordingly. Such an interpretation could well defeat the whole purpose of providing for Estimates to be considered by Standing Committees.

The House, according to Order, resolved itself into the Committee of Supply.

(In the Committee)

Resolved, That there be granted to Her Majesty, for the services of the fiscal year ending March 31st, 1974, the following

MINISTRY OF TREASURY, ECONOMICS AND INTERGOVERNMENTAL AFFAIRS

1001.	To defray the expenses of the Ministry Administration Program.....	\$ 3,558,000

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

I have now had an opportunity to read the letter in the Toronto Sun, written by the Deputy Speaker, and to which the Member for Scarborough West referred on Monday, and I have looked into the precedents which apply.

I find the letter in question to be an accurate statement of the voting procedure as it has evolved in Parliament. Firstly, it must be remembered that the Chairman, or the Speaker, as the case may be, is only expressing his *opinion*; he clearly states "in my opinion the Ayes have it"—or as the case may be. His judgment is not final and does not become final until either the House accepts his opinion or calls for a standing vote or division. In expressing his opinion he is entitled to take a number of factors into consideration, including the probabilities of the case. The reason for demanding a standing vote is, that you do not agree with the Chairman's opinion and wish a counted vote, in order to ascertain whether or not his opinion is in fact correct. Really the only practical reason for the Chairman to call for the Ayes and Nays is that, in at least nine cases out of ten, the Members are prepared to accept the Chairman's opinion and thereby eliminate the necessity for a standing vote. I refer the Members to May's Parliamentary Practice, page 374, and to the Parliamentary Debates of the House of Commons of the United Kingdom (1955-56) 547, c. 602; in that case the Deputy Speaker sitting in Committee of the Whole House had found in favour of the Ayes, even though some Members of

the Opposition expressed the opinion that no voices had sounded on the Ayes side. A division having been called, the Deputy Speaker, while agreeing that the Noes had been louder, stated that he had expressed his opinion from the probability of the case that the Ayes had it and was proving it by having a division.

The following Bills were read the second time:—

Bill 222, An Act to amend The Regional Municipality of Waterloo Act, 1972. *Ordered for Third Reading.*

On Friday last the Member for Scarborough West Tabled a notice of a Want of Confidence motion, purporting to be under Standing Order 87 (i).

I must draw the attention of the House to the fact that Standing Order 87 is the one dealing with the Supply procedure. It provides for the consideration of some Estimates by the Committee of Supply and of others by Standing Committees to which they have been referred. By clauses (g) and (h) it provides for debates on the reports of Standing Committees, and by clause (i) for debates on not more than three Want of Confidence motions. I repeat, this whole Standing Order 87 deals with the supply procedure in the Committees and in the House, and as the procedure under that Standing Order has been completed for this Session, the notice cannot now be accepted and I have directed that it not be placed on the Notice Paper.

I should point out that the procedure is similar both in the House of Commons of Canada and the House of Commons of the United Kingdom, where such motions are included in the days allotted to the consideration of Supply. I refer the Members to May's Parliamentary Practice, 18th Edition, page 279.

The Honourable the Lieutenant Governor of the Province entered the Chamber of the Legislative Assembly and took his seat upon the Throne.

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

At the close of the Third Session of the Twenty-ninth Parliament of Ontario, it is my pleasant task to review some of the accomplishments of this Assembly over the past year.

As Honourable Members are aware, it has been a year in which the Province's economy has been subjected to strong pressures from internal, national and international influences. Nevertheless, Ontario was able to demonstrate an overall increase in real growth of 7.2% in 1973 compared with 6% in 1972, and the unemployment average for 1973 declined to a little over 4% from 4.8% the year before.

The Government has continued to encourage and participate in consultations with municipalities, other Provinces and the Federal Government with useful and largely satisfying results. At several Federal-Provincial meetings, including the meeting of First Ministers last May, the Province has been consistent in its appeal for a comprehensive and coherent plan of fiscal reform.

It is Ontario's view that a reallocation of tax revenues is fundamental, given the distribution of responsibilities among the three major levels of government in Canada.

Significant progress has been made in plans for the reform of local government structures. Legislation for four new two-tier regional municipalities East and West of Metropolitan Toronto and for the regional municipality of Haldimand-Norfolk was the culmination of a restructuring of Ontario's communities on a broader base to enhance their viability and provide a stronger framework for the future.

As stated in the Throne Speech last March, the Government regards the development and implementation of land use policies as an integral part of these reform measures. The new Ontario Planning and Development Act makes provision for just such development planning in continuing consultation with local governments and with scope for regular reviews of development proposals through public hearings and other representations.

My Government is firmly convinced that by pursuing a decentralized administrative system, and by placing the means for development of Ontario's communities more and more in the hands of local governments, it is helping to ensure the preservation of the qualities that are important in the lives of their residents.

In the Budget last spring, grants to municipalities were increased by the unprecedented amount of \$400 million, to \$2.4 billion. The total amount is equivalent to 90% of the Province's total revenues from the Provincial sales tax and personal income tax. These steps have been effective in reducing upward pressures on property taxes across Ontario and in generally strengthening our municipalities.

The unique needs of Northern Ontario are recognized in a special new grant equivalent to an additional 10% of municipal levies that will have brought an estimated \$8.6 million in extra support to our Northern municipalities during this past year. This assistance is in addition to an increased General Support Grant of 4% of municipal levies for all municipalities throughout the Province.

In further measures to prevent large increases in property taxes, the Government of Ontario increased its share of total elementary and secondary school costs by \$92 million over 1972. The Province now, therefore, pays 60% of overall costs of elementary and secondary education. In a period of uncertain post-secondary enrolments, introduction of a "slip year" grants formula based on the previous year's actual enrolment is helping our universities plan programs in advance with full assurance of Provincial support.

Another Budget provision is the abolition of succession duties on all family farms that remain within a family and continue to be used for farming. Ontario's Farm Tax Rebate Program now makes farmers virtually exempt from taxes on the land portion of their assessment by increasing rebates from 25% to 50% of the municipal tax bill.

My Government believes it has a responsibility to ensure that the benefits of this and other Provincial farm policies go to genuine farmers only. To this end, a special Advisory Committee was set up in April to examine the issue of farm classification in Ontario. Their work has included a series of public meetings throughout the Province. The committee's recommendations should lead to further positive action that will encourage farming and preserve valuable farm lands, and which will ensure the continuity of viable farm units.

Early last spring, hundreds of residents experienced hardships as a result of exceedingly high water levels, and ice and erosion damage along the shores of the Great Lakes. Ready and substantial assistance by the Province was made available with a \$50 million program enabling municipalities to make direct loans to property owners for repairs to damaged shore property and buildings. Provision was made for the Northern Ontario Development Corporation to offer similar assistance to residents in the unorganized territories.

A new Ontario Business Incentives Program was established in the summer. Performance loans have been replaced by long-term repayable loans, which are being made available to service industries and tourist operators as well as to manufacturers. A newly created Eastern Ontario Development Corporation will focus on the special development needs of that area of the Province and shares the broadened responsibilities that have been given to the Ontario Development Corporation and the Northern Ontario Development Corporation.

In provisions for senior citizens, former supplementary grants were replaced by a \$100 pensioner tax credit, at a cost to the Province of \$40 million per year, or twice the amount allocated in 1972. As announced in the Budget last spring, senior citizens will benefit as well from new property and sales tax credits, and can now claim all three credits through the income tax system.

Revised workmen's compensation benefits were approved by the Legislature last summer, reflecting cost-of-living increases and higher minimum wage rates. These revisions included an increase in the minimum pension for personal total disability from \$175 to \$250 per month, higher minimum benefits for widows and dependants, and higher earning ceilings for compensation eligibility. In addition, the Workmen's Compensation Board itself is making substantial progress in discharging its duties to the public in accordance with the comprehensive Task Force report received in the fall.

In February 1973, Ontario's minimum wage rate was increased to \$1.80 for employees in general industry and to \$2.05 for construction industry employees. Effective January 1st, 1974 the minimum wage was further increased to \$2.00 and \$2.25 respectively to help reduce the effects of cost-of-living increases on the low-income wage earner. Through additional protective legislation, all employees will be entitled to two weeks' paid vacation annually after one year's employment, and to a minimum of four prescribed statutory holidays with pay.

Honourable Members, the programs highlighted in this review represent but a small proportion of the achievements during an exceedingly busy year. In the business of the Legislature during this time more than 175 Bills brought before this Assembly have received Royal Assent. The provisions they contain are a testament to the continued endeavours of my Government toward ensuring the well-being of the residents of this Province.

May I, on behalf of the people of Ontario, commend you on the way in which you have fulfilled your duties in this past Session. In conclusion, I now declare the Session prorogued.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

The Attorney General then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
